over a two year period.  
And found this place.”*

**Located on 210 beautifully landscaped acres** straddling both Burlington and Elon, North Carolina, Twin Lakes is designed with people like you in mind. Here you'll discover we're more than a retirement community. Our neighborhoods are filled with people who want to live with real purpose. No matter what stage of life you're in, Twin Lakes is a place where you'll make connections, experience a sense of camaraderie, and live your days enjoying what matters to you.

**SOMEONE TO COUNT ON**

*What is hard to imagine is what we might gain. In friendship. In community and care. In kindred spirits that we are on this journey with. We can actually add to our lives, not simply take away from them. And, that is everything. And that is Twin Lakes.*

Family. Friends. Neighbors. It's always nice to have someone in your corner, someone who cares, someone who is there. That's what it's like to be part of Twin Lakes Community. You'll find neighbors who meet up for coffee, a group sharing a meal together, and staff members who know you and your story. It's a place that feels genuine from day one.

INDEPENDENT LIVING

Among our accolades, Twin Lakes Community consistently holds five-star ratings from Medicare, has garnered numerous Leading Age awards, and is CARF accredited. While we appreciate being recognized by these fine groups, our residents' stamp of approval is what means the most.

## ac·tive

ADJECTIVE: engaged in action; characterized by energetic work, participation, etc.

Joining friends for coffee at the Pepper Tree Cafe is where Jane heads first thing in her day. Other parts of her time are filled with quilting, knitting, a variety of exercise classes, and simply enjoying her Twin Lakes home. Jane's also part of a volunteer group that cares for the plants in the memorial garden located in Sullivan Park on campus.

If you're like Doris, you start by going to a morning exercise class on campus. She tries to go five times a week, taking advantage of the variety of classes offered at the fitness center. On Sundays, she tends to go to the pool with her husband, John. He's often found in the woodworking shop crafting his latest project. And they both take time to volunteer at the memory care residence, reading and visiting with residents there.

Russ and Ellen are busy, too. Both utilize Thrive, our personalized wellness program, enjoy water aerobics and walk the campus for exercise. In addition, Russ takes nine or ten exercise classes a week. Ellen is part of the handbell choir on campus and at a local church. They both volunteer with the popular Twin Lakes estate sale, and love decorating their part of the neighborhood for Christmas.

every day: enriching lives, creating community and expanding horizons.

*“Twin Lakes is like a little town where everyone waves and says hello when passing by. It’s a feel good place that just makes you smile, from the beautiful landscaping to the beautiful people”*

— STAFF • TWIN LAKES

**pur·pose**

NOUN: the reason for which something exists or is done, made, used.

*“For those of you who have come since me, that have become my friends, I usually start the conversation with this because it says it all. ‘My life is a yardstick. I’ve got this much left. Everything I do and say and participate in needs to be intentional.’”* — RESIDENT • TWIN LAKES

**CONNECT WITH US**

Everyone has their own story to tell about why they chose Twin Lakes. Some move here because of friends, while others found our community through a thorough search. More than a few acknowledge they were looking for a place that offers the security of a Continuing Care Retirement Community (CCRC).

The one thing that all of these stories have in common is the fact that our residents feel a real connection at Twin Lakes. As they come through our entrance, see our well-planned neighborhoods and admire our mature landscape, our residents all say they feel at home.

*“And basically we elected to do this, my wife and I, because we had learned from our parents, who did not make good decisions.”*

*“We found that Twin Lakes was the best value for our dollar and we liked that there was no required meal plan.”*

*“What’s so special is the majority of staff and residents feel like they are in a family doing life together. It is a community—we may not live here but residents make us feel like we are part of their extended families”* — STAFF • TWIN LAKES

Twin Lakes Community is a neighborhood where long time friends are as important as long-term care. Where independence is treasured. And where the transition isn't about what you give up, but what you've gained.
